Easily flushable launderette & care home powder

- Excellent quality launderette style powder with a fresh floral fragrance.
- Flushes easily from wash machine hoppers.
- Non-bio formulation for sensitive skin.
- Industrial quality results for the high street or institutional launderer.
- Contains oxy destainer for a bright clean finish.

How to use

See dosing table opposite.

Wash according to garment manufacturer instruction. Where combined loads are washed use lowest temperature and minimum wash cycle.

Soaking

Dissolve 250g/10ltrs warm water. Immerse garments/linen in the 25% solution and leave to soak for up to 12 hours before hand/machine washing and rinsing with clean water.

Never soak wool, leather, silk, garments with metal fasteners or those with flame resistant finishes. Always follow garment washing instructions and check for colour-fastness before use. Ensure that process has an adequate rinse to avoid detergent retention.

For further process information speak to an Ideal technical representative.

Health & safety

Available on request. Store in cool & dry conditions. Use rubber gloves for hand washing.
