Pva

pva starch

Phosphate free

Optical brightener free

40° Low temperature formula

Pva

PRODUCT CODE	205
APPEARANCE	opaque white liquid
REACTION	mildly acidic
STORAGE	above 5°C
STANDARD PACK SIZE	20ltr
ALSO AVAILABLE IN	5ltr, 10ltr

Easy-to-use synthetic starch for crisp, fresh shirts

- Easy-to-use synthetic PVA liquid starch which provides good stiffness with minimal temperature and pressure on ironing equipment.
- Concentrated formula for economical use.
- Effective in controlled quantities on shirts for a professional crisp finish.
- Excellent on shirts and for use on non-steam powered finishing equipment.
- Can be added in small quantities to natural starch when processing polyester table linen to improve adhesion of the natural starch to the fabric.

Light dose	3-5mls
Medium dose	5-7mls
High dose	7-10mls

Dosage per 1kg of dry weight laundry

How to use

Apply in the final rinse at slightly elevated temperatures and at the lowest possible dip for approximately 5 minutes.

Use sparingly as overuse will result in a very stiff finish which is difficult to reverse.

See dosing table opposite.

For further process information speak to an Ideal technical representative.

Health & safety

Available on request. Store above 5°C.
