

Spot Stain Removal

SK

Spotter Kit

888

PRODUCT CODE	888
STORAGE	above 5°C
STANDARD PACK SIZE	6 x 250ml
ALSO AVAILABLE IN	5L drum refills

Comprehensive kit of Ideal professional stain removers in 250ml applicator bottles

All the tools for effective stain spotting at your fingertips.

Developed in consultation with professional cleaners for tackling stains.

Includes: Red Spot, Orange Spot, Yellow Spot, Green Spot, Blue Spot, Rust Remover and A3 fold-out Spotter wall Chart.

Die cut Ideal washing machine box contains six individual spotters in convenient 250ml applicator bottles.

Refills available in economic 5L drums.

How to use

Refer to Ideal Spotter Chart.

Apply spotter directly to stain. Allow time to penetrate. Gently work stain with a spotting bone, brush or Ideal roll-on applicator. Flush area with water or steam. Clean treated garments as normal. Dyestuffs can often display poor fastness to chemical spotting, so we recommend that seam tests are always carried out before application. It's always better to clean as soon as possible after application. You should only pre spot garments in time for the next load.

For further process information speak to an Ideal technical representative.

Health & safety

Available on request. Store above 5°C.
